

Have A Question For OBO?

Do you have a question about your
paycheck or leave balances?
Or a question about your procard,
accounts payable payment, or
purchase?

We want to help you with your
questions but also want to protect
both you and the OBO staff.
We welcome questions over email
or phone calls. However, if you
prefer to meet in person please
contact the appropriate OBO
employee or area to make an
appointment so we may be
prepared with the information and
to assist you in a safe, and socially
distant environment.

Purchasing

Procurement continues to partner with our
contracted suppliers to identify areas of the
supply chain that may have delays or lags.
Some of these delays will continue for the
immediate future until demand begins to level
off and resources are more available. Our
partnered vendors have been using data and
market research to help develop a consistent
supply chain and services to help the
University.

Procurement Services will be happy to discuss
and research solutions to your needs to ensure
you are able to get that you need when you
need it!
