1.2 Minimum number of seats required for the passenger jet or turbo prop aircraft is detailed. Please offer aircraft for each flight with these capacities or greater. Schedules at this point are tentative. Winning vendor(s) will need to work with the UNI Athletic Department to arrange exact departure times as the season draws closer. Please state the latest time a schedule flight can be changed.

Vendors will provide a complete semi-scale diagram [or web site link to a suitable diagram] of the cabin showing seat and row placement within the aircraft offered. Block diagrams are not acceptable.

UNI requests a photograph of the aircraft offered to UNI and FAA registration information must be provided with your offer.

At a minimum vendors must provide the name of the airline or charter company from which the aircraft will be supplied and the FAA registration number(s) of the aircraft that will perform the charter.

If there are changes in aircraft assignments after award, this information must be provided at least 7 business days prior to the first charter flight.

1.3 Meals or other services required: UNI will work with vendor on meal selection. Requirements are stated on schedule above.

1.4 Each vendor will send menu choices for all meals that can be offered with their bid at no additional cost.

1.5 Each vendor will indicate the maximum number of hours the aircraft can deviate from the proposed schedule. Some flexibility may be necessary to accommodate last minute changes in game times.

1.6 Commissions normally paid to a travel agency will be rebated to the University of Northern Iowa.

1.7 UNI expects vendor’s aircraft to arrive early enough to allow for approximately two hours boarding period, prior to departure.

1.8 Boarding and off-loading will take place either through the Waterloo Regional Airport. Vendor will specify from which location boarding and off-loading will occur.

1.11 Fuel Surcharges may be assessed if the price of fuel increases from the date of the offer to UNI. The bid offer should note the current market price of jet fuel at the FBO the
aircraft offered will be initially fueled. Alternatively, the spot market regional price for jet fuel may be offered. Requests for fuel surcharges will not be honored if bids are offered based on an unrealistically low or unsubstantiated jet fuel price. **Offers need to reflect the current cost of fuel used in the charter quotation.**

1.12 Aircraft will be provided with cabin seating arrangements enhanced for transporting athletes, or a first class section or other area with wide aisles and seats to accommodate larger team members.

1.13 **Aircraft quality** will be insured by the broker and or the contracted carrier. A quality aircraft will be clean and serviceable upon arrival. There will be no ripped or stained seat cushions. All seat backs will recline (if designed to do so) and lock properly (emergency access seating is exempt). Rest rooms will be clean and functioning. Floors will be vacuumed and no trash is to be found in storage area or seatback magazine holders. **If quality conditions are not satisfactory, a damage assessment of $500 will be applied against the invoice** to offset the cost of processing traveler complaints.

1.14 UNI may elect to award on a flight by flight basis. If a better price can be offered for taking all flights with one company please be sure to state additional discounts in your offer.

1.15 The University is concerned with the apparent lack of backup jets available should an aircraft be pulled from service. Each bidder will indicate in there off the number of back units that can be called on in the event of a mechanical or weather related delay.
